

SURE-CLEAN 1 STEP PORCELAIN CLEANER

Sure-Clean Porcelain Cleaner contains no acid. After months of research and development, it was specifically developed to dissolve waxes and grout residue from the surface of porcelain tiles. Because it contains no acid, it can be safely used on all highly polished and unpolished surfaces. It only works on the surface. It does not penetrate and weaken the masonry substrate as do powerful acids, nor is it capable of burning porcelain tile floors.

Most manufacturers ship their porcelain tiles with a coating to insure non-staining in transit. The coating materials can vary from waxes to polystyrene packaging.

These coatings must be removed. Our Porcelain Cleaner has been designed to clean and restore porcelain tile in a single application, unlike cleaners containing acids this product dissolves waxes and grout residue without harming the tile or grout.

It is safe and effective to use on any surfaces--wall and floor. Sure-Clean for Porcelain is ready to use, and should not be diluted. Simply apply to the surface, agitate and wipe off.

Benefits and Characteristics

- Easy to use and cost effective
- Removes virtually all surface contaminants
- Safe for use on all wall and floor surfaces
- Will not harm chrome fixtures

Directions for Use

Clean: Sure-Clean was developed to dissolve wax and grout haze from porcelain tile. Apply with a brush roller, or simply pour Sure-Clean onto Porcelain tile.

Buff: Buff small areas with a lint free cotton cloth or for larger areas, use a buffing machine with a white cotton or lambs wool pad.

Seal: Apply first coat of Sure Seal® "Impregnator for Porcelain"; allow to dry for a minimum of 5 hours.

Final: Apply second coat of Sure Seal® "Impregnator for Porcelain". buff off prior to second coat drying completely. Use a clean, white, lint-free cotton cloth. For Larger areas, a buffing machine with a white cotton or lambs wool pad.

Note: Consult the Sure-Clean for Porcelain Material Safety Data Sheet for details regarding Hazardous Properties and Personal Protective Equipment requirements.

Appearance/Odor: A clear solution with a bubblegum fragrance

Packaging: Available in 1 litre, 4 litre and 20 litre containers

Coverage: 35 to 45 sq. metres per litre depending on the condition of the surface.

Storage/Shelf Life: Keep in sealed containers in a cool dry place. When properly stored, shelf life is indefinite.

Note: Consult the Sure-Clean Porcelain Cleaner Material Safety Data Sheet for details regarding Hazardous Properties and Personal Protective Equipment requirements.
