SEAL-GUARD® RUG & CARPET PROTECTION

EASY TO USE:

Sure Seal's Seal-Guard® Rug & Carpet Protection is a low odour, deep penetrating formulation that when properly applied will help protect your investment in fine quality carpet & rugs. It helps prevent oil and water-based staining on all types of rugs and carpets, including oriental rugs etc. Invisible upon application, Seal-Guard® Rug & Carpet Protection will not change the colour, look or feel of rugs and carpets.

PREPARING THE SURFACE:

All surfaces must be clean and free from debris. Always test product in an inconspicuous area for suitability

DIRECTIONS FOR APPLICATION:

Apply to clean or new rugs or carpets. Hold the can approx. 30-40 cm above the surface to be treated. In a slow, sweeping motion, spray on rug or carpet evenly. Approximate drying time is two hours at which time repellency can be checked with small drops of water. Water beading should occur. Remove water by pressing down gently with white paper towel. If second coat is needed, follow initial application instructions. Treatment with Seal-Guard® Rug & Carpet Protection will last for years, but we recommend reapplication after professional cleaning. One coat is normally sufficient, but on thick-pile carpet or rugs, or heavily used areas, two coats are recommended for optimum results

AFTER CARE INSTRUCTIONS:

If a spillage occurs, absorb immediately with a clean cloth or white paper towel. A sponge and cold clean water should be used on any residue or a dried liquid. Do not scrub. For a semi-solid or greasy stain, remove most of the material with a spoon or blunt knife. Mix warm water with a small amount of mild detergent and sponge gently until the stain is removed. It is most important that the residue of detergent be removed immediately with clean, clear water.

COVERAGE:

One 350 gram aerosol can, will cover up to 6 sq. meters of rug or carpet. Product is also available in 20 litre containers for large applications. One litre will cover up to approximately 15 sq. metres of fabric, rug or carpet depending on the method of application.

EFFECTIVE LIFE:

Expected wear is many years depending on the material, use and maintenance of the surface being protected. Professional cleaning or harsh cleaning methods and high-alkaline or solvent-based cleaners will affect the life expectancy of the product.

FIRST AID:

For advice contact a Poisons Information centre Phone Australia 131 126; New Zealand 03 474 7000; or a doctor. If swallowed DO NOT induce vomiting. May cause irritation by skin contact.

PRECAUTIONS:

Use only as directed. Avoid breathing vapours or spray mist. Do not spray in eyes, mouth or on skin.

STORAGE & DISPOSAL:

Protect from sunlight and do not expose to temperatures exceeding 50° C. Do not pierce or burn even when empty. Dispose of by putting in garbage or leaving at an appropriate metal recycling collection point.

SHIPPING:

Hazchem 2RE, Packing Group None set, DG Class 2.1, UN 1950 Aerosols.
